

# Union County College

Founded in 1933, Union County College (UCC) is the oldest 2-year college in the State of New Jersey and operates four major campuses, all of which are conveniently located in the New York metropolitan area. UCC enrolls over 10,000 full- or part-time credit students at its campuses in Cranford, Elizabeth, Plainfield, and Scotch Plains and also provides an extensive menu of non-credit, continuing education, and career-training programs.

Union County College is a member of the New Jersey Marine Science Consortium, which affords students the opportunity to become acquainted with the marine environment through summer credit course offerings. The offerings supplement the science curricula at the College and increase the course options available for students.

Union County College is focused on ensuring that its programs and facilities are equipped to prepare students for the intellectual and technological demands of the 21st century.

## DEGREE OR CERTIFICATE PROGRAMS

Environmental Science  
Physical Science  
Biotechnology  
Bioterrorism and Homeland Security
