A Cooperation  
Among

Dear Marina Owner,

We are inviting all pledged marinas and those interested in pledging to attend a Clean Marina Roundtable to review the best management practices in the Guidebook and the benefits of being part of the Clean Marina Program. We appreciate your dedication to being part of the industry's effort to protect New Jersey's water and coastal resources.

To help you complete the Clean Marina Checklist, we have arranged two review sessions in different locations throughout New Jersey hosted by the NJ Clean Marina Program partners: The NJDEP Coastal Management Office, New Jersey Marine Sciences Consortium/New Jersey Sea Grant and the *I BOAT NJ* Program.

We will work with you in a group setting, but with individual attention, to complete the self-assessment checklist. Your questions and concerns are likely shared by others and we can all benefit by working together.

The goal of these meetings is to answer all of your questions and work with you to complete your checklist. If you score 80% or higher we can schedule the verification visit, the final step in the Clean Marina certification process. We can also help you identify where you can implement additional BMPs to reach that 80% objective.

Seating for these events is limited, so please register as soon as possible for the date/location you wish to attend. Fill out the registration form and fax it to 732-291-4483 or register online at [njmsc.org](http://njmsc.org). Bring your copy of the Clean Marina Guidebook and Self-Assessment Checklist. We will also have additional copies of the checklist available.

Contact Jessica Staats at 732-872-1300 ext. 20 or [jstaats@njmsc.org](mailto:jstaats@njmsc.org) with any questions you may have.

We look forward to seeing you there!
