

10. The construction of the portion of a boat ramp landward of the mean high water line at a residential development, provided that construction waterward of the mean high water line is authorized through the issuance of a Waterfront Development permit. A boat ramp located within wetlands is not authorized by this permit-by-rule. The width of the boat ramp landward of the mean high water line shall not exceed the width of the boat ramp waterward of the mean high water line. The Waterfront Development permit may include additional conditions on the upland construction to insure compliance with the Coastal Zone Management rules (N.J.A.C. 7:7E).

11. The construction and/or installation, at a marina, a boatyard or a boat sales facility, of a boat wash wastewater system that prevents the discharge of boat wash wastewater to the waters of the State, including a boat wash wastewater system necessary to comply with the Equipment and Vehicle Washing provisions of the New Jersey Pollutant Discharge Elimination System (NJPDES) Basic Industrial Stormwater General Permit NJ0088315 (5G2) established under the NJPDES rules, N.J.A.C. 7:14A. This permit-by-rule authorizes the construction of a boat wash wastewater system, including an impervious wash pad or pads connected to a collection system, reclaim/recycling system, or infrastructure to connect to an existing sanitary sewer. This permit by rule additionally authorizes a sump or other mechanism to collect the boat wash waste water, shed(s) to house the treatment system and/or a tank(s) to store the wash water for reuse or collection, as applicable for the system utilized. This permit-by-rule authorizes at any one marina, boatyard, or boat sales facility one to three wash pads and a maximum of three boat wash wastewater systems. Authorization under this permit-by-rule does not relieve a marina or boatyard of the obligation to obtain any other permits from the Department, including a Treatment Works Approval for a sanitary sewer connection or a Basic Industrial Stormwater General Permit NJ0088315 (5G2). Each boat wash wastewater system shall:

- i. Be located on the upland portion of the marina, boatyard, or boat sales facility;
- ii. Be located outside of any wetlands;
- iii. Include a wash pad that is:

THIS IS A COURTESY COPY OF THIS RULE. ALL OF THE DEPARTMENT'S RULES ARE COMPILED IN TITLE 7 OF THE NEW JERSEY ADMINISTRATIVE CODE.

- (1) Equipped with a pit, trough, trench drain, or settling chamber with sump or similar type pump;
 - (2) Bermed or pitched to drain all boat wash wastewater to the pit, trough, trench drain, or settling chamber;
 - (3) Less than or equal to a surface area of 1250 square feet; and
 - (4) Connected to a reclaim/recycling system, collection tank to store boat wash wastewater for reuse or collection/pump out, or a sanitary sewer;
- iv. If the system has a shed or storage unit to house the boat wash wastewater system, the shed or storage unit shall be:
- (1) Used exclusively to house the boat wash wastewater system;
 - (2) Less than or equal to 150 square feet in size; and
 - (3) Limited to one shed or storage unit per system; and
- v. If the system will discharge to a sanitary sewer, connection shall be to an existing sewer line located on-site or immediately adjacent to the site.

(b) For activities subject to (a)5, 6 and 10 above, the Department shall review the activities subject to the permit-by-rule in conjunction with the Waterfront Development permit application.

(c) Notification to the Department prior to commencement of a development which meets the conditions of (a)1, 3, 4, 7, 8 and 9 above is not required.
