

New Jersey Clean Marina Program

Newsletter

Vol. 1 No. 4 Summer 2008

THE NEW JERSEY CLEAN MARINA PROGRAM ENCOURAGES MARINAS, YACHT CLUBS, BOATYARDS AND BOATERS TO VOLUNTARILY ADOPT PRACTICES THAT HELP PREVENT ADVERSE IMPACTS TO WATER QUALITY, SENSITIVE HABITATS, AND LIVING RESOURCES IN PROXIMITY TO MARINAS.

New Jersey Clean Marinas

- ◆ Atlantic Highlands Municipal Harbor ◆ Baywood Marina, Brick ◆ Dillon's Creek Marina, Island Heights
- ◆ Forked River State Marina, Forked River ◆ Green Cove Marina, Brick ◆ Hobby Lobby Marine, Toms River
- ◆ Jersey Shore Marina, Brick ◆ Kammerman's Atlantic City Marina, Atlantic City ◆ Key Harbor Marina, Waretown
- ◆ Leonardo State Marina, Leonardo ◆ Main One Marina, Avon-By-the-Sea ◆ Morgan Marina, Inc, Parlin
- ◆ Riverbank Marina, Bayville ◆ Robbie's Loveladies Marina Inc, Loveladies ◆ Silver Cloud Harbor Marina, Forked River
- ◆ Spencer's Bayside Marina, Waretown ◆ Viking Yachting Center, New Gretna

NJCMP Receives Funding

The New Jersey Clean Marina Program has received over \$411,730 in new funding from the *I BOAT NJ* Program. Over the next two years, NJCMP will use the new funds to increase Program participation among marinas and other boating businesses as well as provide outreach and technical guidance to marinas interested in adopting BMPs. The new grant will also fund smaller projects, allowing marina owners to apply for funding to implement BMPs at their facilities. For more information, visit njcleanmarina.org.

MTA/NJ UNVEILS RESULTS OF RECREATIONAL BOATING ECONOMIC IMPACT STUDY

The Marine Trades Association of New Jersey (MTA/NJ) unveiled the results of a two year effort to quantify the economic impacts of recreational boating in the State of New Jersey at the Association's Annual Dinner & Elections. This study, the first of its kind in New Jersey, directly measured expenditures related to recreational boating and their impact on the state's economy.

The survey results indicate that New Jersey boaters spent approximately \$2.1 billion dollars on in-state recreational boating activities in 2006. Of the money spent, \$1.1 billion were trip-related expenditures and \$938 million were in annual boating purchases (such as registration fees, maintenance, etc.). The study also showed that New Jersey's recreational boating industry provides approximately 18,000 jobs.

The report can be viewed at the following link mtanj.org and for more information contact Melissa Danko, MTA/NJ Executive Director at 732-292-1051 or mdanko@mtanj.org.

Dates to Remember!

August 9: National Marina Day

September 17: Clean Marina Workshop

(see reverse for more information)

Regulatory Air Permit Reminder

An air permit (N.J.A.C. 7:27) is required if a marina dispenses gasoline or other volatile fuel products from an aboveground or underground storage tank greater than 2,000 gallons in capacity. An air permit is also required if the marina uses equipment in a surface coating operation such as spray painting in which the quantity of coating or cleaning material used in any one hour is equal or greater than on half gallon of liquid.

To obtain an air permit, NJDEP at 609-633-2829 or go to <http://www.state.nj.us/dep/infofinder/topics/air.htm>

Congratulations!

Key Harbor Marina of Waretown has achieved "Clean Marina" Status

For more information on how to become a "Clean Marina", visit njcleanmarina.org.

CVA Offering Operation and Maintenance Funding for Marinas with Pumpouts

The New Jersey Clean Vessel Act Program is pleased to announce the availability of Operation and Maintenance (O&M) funding to New Jersey marinas. Up to \$1,500 in expenses will be reimbursed per marina for the O & M of pumpout equipment during the 2008 boating season. Marinas can be reimbursed for pumpout staff costs, repairs, maintenance, and boat sewage hauling fees, less any income generated from fees charged for pumpout service.

If you are interested in participating in the O & M funding program, visit njmsc.org/Sea_Grant/Extension/OM_Funding.pdf, print and fill out the O & M participation memo from the Clean Marina section. This memo can be faxed to (732) 291-4483 or mailed to [Attention: NJCVA Program, NJMSC, Building 22, Fort Hancock, NJ 07732.] If you have any questions, contact Mike Danko at 732-872-1300 ext. 29 or mdanko@njmsc.org.

New Jersey Boater's Ramp Guide

The New Jersey Boater's Ramp Guide has been updated for 2008.

To receive a copy(s), e-mail jstaats@njmsc.org with your name, mailing address and quantity.

GOING GREEN FOR 2008

In an effort to protect the environment, many people are adopting “green” practices in their everyday lives. There are many ways to also incorporate these practices in the boating industry. Today there are many new environmentally friendly products on the market to replace harsh chemicals, cleaners, paints and paint strippers. Not only are they healthier for the environment, but for the user as well.

Remember to recycle:

- Plastic and glass bottles
- Cans
- Monofilament fishing line
- Cardboard
- Paper
- Oil
- Computers/electronics
- Batteries
- Antifreeze
- Vessel wash water
- Zinc and aluminum anodes and other scrap metals
- Shrink wrap
- Mercury containing devices, i.e. bilge float switches, thermostats

A few ways to conserve energy:

- Replace incandescent bulbs with compact fluorescent bulbs which use less energy and last longer than traditional light bulbs.
- Use motion sensors for lights in low traffic areas such as restrooms, store rooms, etc
- Use hand dryers in restrooms instead of paper towels reducing waste and cost of supplies.

For more information on soy-based cleaners and products along with recycling options for shrink wrap, scrap metal, and various other items visit, njcleanmarina.org.

To reduce printing and mailing costs and eliminate waste, future issues of the New Jersey Clean Marina Program Newsletter will be distributed through email. If you would like to continue receiving future issues, contact Jessica Staats at jstaats@njmsc.org or 732-872-1300 ext. 20.
